

**GConsulting** is a comprehensive solution for consultants and organizations focused on the implementation and management of Regulatory Compliance Management Systems. Its design allows for the management of regulations such as NIST, RGPD, ISO 27001, ISA 62443, NIS2 and DORA in a centralized and efficient manner.

## ¿WHY use GCONSULTING?

- 1º Centralizes compliance management in a unified platform.
- 2º Automates key processes, reducing time and operational costs.
- 3º Generates customized reports with essential decision-making insights.
- 4º Adapts to multiple regulations with flexibility and scalability.
- 5º Improves traceability of compliance actions.
- 6º Intuitive interface for easy adoption by any user.
- 7º Ideal for consultants managing multiple clients from a single platform.
- 8º Continuously evolves to adapt to regulatory changes.

### Main benefits:

- Provides a comprehensive and detailed view of the organization's regulatory compliance.
- Facilitates document management and risk analysis.
- Automate and streamline the tasks of the Security Master Plan.
- Improves security and operational continuity
- Increase the confidence of customers and business partners.

## Key features

- Regulatory Compliance: Implements NIST, GDPR, ISO 27001, NIS2 and DORA.
- Document Management: Version control and approvals.
- Risk Analysis: MAGERIT and PILAR Methodologies.
- Dashboards: Monitoring and reporting.
- Standards Implementation Assistant: Structured monitoring based on PDCA.
- Audit Module: Planning and management of audits.
- Human Resources: Assignment of roles and responsibilities.
- Dashboard and Indicators: Management of metrics and KPIs with alerts, parameterization and a visual panel to monitor regulatory compliance.
- Automatic tracking of the tasks in the Security Master Plan and risk management.

## REPORTS

**Asset, Threat and Risk Report:** Generates a detailed assessment of critical assets and vulnerabilities, proposing specific mitigation plans.

**Task Status Report (Single Entity):** It allows for detailed monitoring of the degree of regulatory compliance within a specific organization.

**Task Status Report (Multi-Organization):** Evaluates the progress of multiple organizations under the same regulatory framework, facilitating decision-making.

**Report on metrics for control compliance:** Facilitates the management and tracking of control compliance indicators (KPIs).

At Singlar Innovación we are aware that each company has a specific problem, so we recommend that you contact Singlar Innovación and our Security and Government experts will advise you in a personalized manner.
